CORONAVIRUS (COVID-19) UPDATE

March 18, 2020

To: All Patients, Family Members, Residents, Guardians, and Program Participants

The health and safety of our patients, residents, family members and staff remain the most important priority at Hope Network Neuro Rehabilitation. We are committed to keeping you informed of not only what we are learning on a daily basis about COVID-19, but how we are responding to this information and how we plan to meet the needs of everyone involved.

Updates on Hope Network Neuro Rehabilitation program changes, once public health updates on COVID-19 are distributed, will be posted to this webpage as quickly as possible: http://www.hopenetworkrehab.org/covid19.

We anticipate frequent updates and changes as we learn more about how the virus is progressing. A pre-recorded message, at 616-248-5284, is also available for up to date information. Rest assured, we will continue to provide regular updates to staff and communicate program changes to families as soon as decisions are made.

If you have questions, please call your location’s office and/or your case manager.

Thank you,
Hope Network Neuro Rehabilitation
